## HEALTH NEWS

### AIIMS Delhi to give CPR training to all its staff to counter heart attack cases

AIIMS Delhi has announced plans to train all its staff, including doctors, paramedics, security guards and sanitation workers, with the emergency life-saving procedure called Cardiopulmonary Resuscitation (CPR) to counter the rising number of heart attack cases.

AIIMS has signed an agreement with Indian Resuscitation Council Federation to impart the training. Immediate Cardiopulmonary Resuscitation (CPR) can double the chances of survival after cardiac arrest.

is taking a proactive step to counter heart attack cases by providing CPR training to all its dedicated staff, empowering healthcare professionals with life-saving skills its staff to counter heart attack cases

AIIMS has signed an agreement with Indian Resuscitation Council Federation to impart the training. Immediate Cardiopulmonary Resuscitation (CPR) can double the chances of survival after cardiac arrest.

# “NMC board New Regulations for PG students”

- In USA and UK all post graduates before joining the PG course are required to be certified in BLS and ACLS since 1980s.
- On Jan 1st 2024, NMC published post graduate guidelines PGMER, 2023, on its website.
- "Course in Cardiac Life support skills".
  - I) All post graduate students shall complete a course in Basic Cardiac Life Support (BCLS) and Advanced Cardiac Life Support (ACLS) skills to be conducted by the institute.
  - II) The students shall complete the course in the first year.
  - III) No post graduate student shall be permitted to appear in the examination without the above certification.
- As per the new regulation, from the year 2024, Basic and Advanced Life Support training and certification is mandatory to all the post graduate Students.
- IRCF reached a milestone with these new NMC regulations.
- We thank "Dr Lokesh Edara" for advocating to NMC on evidence-based information of resuscitation course certification to PG students.
